

OFFICIAL COHORT SCHEDULE MAP

Figure Academy

Empowering Minds Through Technology

Welcome to Figure Academy. This document is your full journey through the program — your dates, expectations, structure, links, and guidelines, all in one place. Please keep this document saved. Refer to it often so you always know what is happening and when.

PROGRAM BEGINS 1ST OF OCTOBER 2026 — JOIN ON ZOOM

Topic: Figure Academy Cohort Induction & Track Kickoff

Zoom link: to be shared in your cohort WhatsApp group and by email ahead of the session

IMPORTANT LINKS

Everything You Need, In One Place

Learner Portal: <https://portal.figureacademy.org/>

This is where your classes, quizzes, coursework, and weekly assignments live once your track goes live. Bookmark it on both your phone and laptop.

Cohort WhatsApp Group (Compulsory): <https://chat.whatsapp.com/BJab1KNkKmdKX7pMXMinl8>

Every student must join. This is our main channel for announcements and community support.

Baseline Questionnaire (Compulsory – fill before your track begins):

<https://form.jotform.com/262661900932053>

Official Email: info@figureacademy.org

LinkedIn: [Figure Academy](#) (search “Figure Academy” on LinkedIn and follow the official page)

Instagram: [instagram.com/figureacademy_](https://www.instagram.com/figureacademy_)

Facebook: web.facebook.com/figureacademy

Your Student ID

Once enrolment is confirmed, you will be assigned a Student ID in the format FA26-[TRACK CODE]-XXXX (for example, an AI & Automation student might be FA26-AI-0007). Your track code and number will be sent to you directly – always include your Student ID in every enquiry or communication with the team.

BEFORE WE BEGIN

Make It Official

On the day your track begins, we ask that you read the Figure Academy Learner's Pledge at the end of this document, out loud and with intention. Post a short clip or photo of the moment on LinkedIn, tag @Figure Academy, and use the hashtag #FigureAcademy – we would love to repost it.

How the Program Works

- The program runs from 1st October to 5th December 2026, across 12 structured weeks.
- You are enrolled in one of six isolated tracks – you will only see the content, quizzes, and leaderboard for your own track.
- Classes are pre-recorded and released Monday through Thursday – watch them on your own schedule within the week.
- Every class day includes a lecture, a graded quiz (10 questions, 100 marks, 10-minute timer), and coursework (10 questions, 10-minute timer) tied to that day's topic.
- Each week replaces daily assignments with one major portfolio assignment – designed to be genuinely shareable and CV-worthy, not busywork.
- Weekly assignments are submitted as a short LinkedIn video post. Tag @Figure Academy, use #FigureAcademy, and submit your post URL and video link on the portal for grading.
- Weeks 9–12 are your capstone stretch – building, refining, and presenting a portfolio-ready project in your track.
- Week 12 closes with your certification exam, graduation, and internship placement process (Graduation: 5th December 2026).
- Grading feeds your progress bar, your track leaderboard, and your certificate eligibility – consistency matters as much as any single submission.

COMMUNITY & SUPPORT

WhatsApp Policy

The cohort WhatsApp group is strictly for announcements, light community support, and celebrating wins. It is not a teaching channel – facilitators will not deliver lessons or resolve technical questions there.

All learning questions are reserved for Handholding Sessions below, and all coursework, quizzes, and assignments are submitted through the Learner Portal, not WhatsApp.

Handholding Sessions

Dedicated live Zoom sessions where you show up to ask questions strictly based on what has already been taught. Held every Wednesday, 12 noon – 2:00 PM (WAT). Facilitator assignments by track will be shared in your cohort WhatsApp group and on the portal.

Note: Questions outside what has already been taught will not be answered in these sessions.

Live Sessions

- One live session happens each weekend, on either Saturday or Sunday – the exact day and time will be confirmed weekly in your cohort WhatsApp group.
- If a guest facilitator is joining, we will announce it at least 48 hours ahead.
- Recordings are shared in the cohort WhatsApp group after each session.
- An attendance form is shared during each live session – attendance counts toward prize eligibility, so show up and sign in.

RECOGNITION

How Prizes Will Be Won

Free Laptop	Awarded to the single best-performing student across the entire cohort (all six tracks combined).
Exam Vouchers	Awarded to the top 5 performing students cohort-wide, to subsidize their certification exam payment.

To Qualify

- Complete the Baseline Questionnaire before your track begins.
- Follow weekly assignment instructions exactly — LinkedIn video, tag, hashtag, and URL submission.
- Complete the full 12-week curriculum for your track.
- Participate in live sessions — attendance is tracked.
- Maintain consistency across quizzes, coursework, and assignments, not just isolated high scores.

Figure Academy reserves the right to determine final prize allocation. Ranking is based on total graded performance (quizzes, coursework, and weekly assignments) combined with attendance and consistency across the full program.

THE JOURNEY AHEAD

Program Calendar

Every track runs the same 12-week rhythm, with content specific to each track. Your full day-by-day curriculum and weekly portfolio assignments are in the separate Figure Academy Six-Track Curriculum guide – this is the big-picture map.

When	What Happens
Sept 19, 2026	Onboarding Ceremony
Oct 1, 2026	Cohort Induction & Track Kickoff – main program begins
Weeks 1-8	Core track curriculum – daily lecture, quiz, coursework + weekly portfolio assignment
Weeks 9-12	Capstone stretch – build, refine, and present your portfolio project
Week 12	Certification exam, graduation, and internship placement process
Dec 5, 2026	Graduation Day

Track-specific weekly themes (Week 1 through Week 12) are set out in full in the Six-Track Curriculum guide, alongside each week’s portfolio assignment.

THE FIGURE ACADEMY LEARNER'S PLEDGE

Today, I make a conscious decision to show up as the builder of my own future. I accept that where my skills stand today is not where they must remain, and I take ownership of the growth that happens from this moment forward. I will not consume lessons passively. I will practice, I will build, and I will finish what I start.

I understand that consistency, not intensity, is what carries a person through twelve weeks. I commit to showing up daily, even on the days learning feels slow. I will treat every quiz, every piece of coursework, and every weekly assignment as a real opportunity to prove what I am capable of, not as a box to check.

I will not let fear of imperfection stop me from sharing my work. I will post my progress publicly, represent Figure Academy with pride, and use every portfolio assignment to build a body of work I can point to with confidence. I understand that visibility today builds opportunity tomorrow.

I will engage with my facilitators, my track community, and my handholding sessions with respect and curiosity. I will ask questions instead of staying stuck. I will support my fellow learners instead of comparing myself against them, and I will keep negativity out of every space this community shares.

I understand that this program is not magic – it is a system. If I execute, I will grow. Excellence is not a single moment in my journey; it is my standard for every week between now and graduation. Discipline is not optional here. It is required.

From today, I no longer describe myself as someone who is only just starting. I am a learner in motion, building real, certifiable, career-ready skill – one week, one assignment, one submission at a time.

This is my pledge. This is my responsibility. This is my next level.
